

NAMRATA SARKAR

Full-Stack Software Developer | React.js · REST APIs · Security

+91 9163299472 | Kolkata, West Bengal, India | namratasarkar164@gmail.com | [linkedin.com/in/namratasarkar9](https://www.linkedin.com/in/namratasarkar9) | namratasarkar.vercel.app

SUMMARY

Full-stack software developer with 2+ years of experience designing and developing large-scale, mission-critical web applications. Strong JavaScript foundations with hands-on experience in React.js, REST API integration, responsive UI development, and application performance optimization. Skilled in testing, debugging, and resolving critical security vulnerabilities, leveraging AI-assisted tools (ChatGPT, Claude, Gemini, DeepSeek, Google Antigravity) to accelerate feature delivery, code review, and bug resolution.

TECHNICAL SKILLS

Languages: JavaScript, Java, PHP, SQL, HTML5, CSS3, Python

Frameworks & Libraries: React.js, Node.js, Laravel

UI & Performance: Responsive UI Development, Application Performance Optimization, REST API Integration

Databases: PostgreSQL, MySQL

Security & Testing: XSS Remediation, Authentication Vulnerability Assessment, File Upload Security, Security Audits

Development Practices & OS: Git, Agile/Scrum, Linux

AI-Augmented Development: LLM-Based Tools (ChatGPT, Claude, Gemini, DeepSeek), Google Antigravity

Concepts: System Architecture Design, Performance Optimization, Scalability, Government Compliance Standards

EXPERIENCE

Software Developer | National Informatics Centre (NIC), MeitY

Sep 2024 – Present

Contractual engagement through Aeologic Technologies Pvt. Ltd.

Kolkata, India

- Engineered and maintained **5+ large-scale, mission-critical government web applications** — delivering **15+ features across 50+ API endpoints** — end-to-end using **React.js, Laravel, and PostgreSQL**, accelerated with AI-assisted tools, serving thousands of citizens.
- Built and shipped the **West Bengal Taxation Tribunal (WBTT) website** from the ground up to production, supporting **100+ cases registered monthly** through a responsive, secure, and user-friendly public-facing platform.
- Slashed page load and API response times to ~5s** by engineering loader-based UX optimizations, local storage caching, and middleware improvements across REST API integrations and database-driven features.
- Eliminated 100+ security vulnerabilities** across **2 completed security-audit cycles** — including XSS, insecure file uploads, and authentication flaws — achieving full **security-audit compliance** and reducing application risk.
- Architected and optimized scalable application designs** — restructuring **3 of 5 applications** and building the WBTT application and CMS **entirely from scratch** — supporting **1000+ concurrent users at 99% uptime** while cutting database query time and server errors.
- Resolved 20+ production bugs and defects** with an average turnaround of **1-2 days** (using AI tools to speed root-cause analysis) within a **2-5 member cross-functional team**, partnering with QA and government stakeholders to deliver production-ready fixes.

UniConverge Technologies

Jun 2023 – Jul 2023

Python Intern

Kolkata, India

- Built Python-based scripts and contributed to production software modules, gaining hands-on backend development experience and production-level code practices.

KEY ACHIEVEMENTS

- Security Hardening:** Led remediation of 100+ critical vulnerabilities in government security audits, including XSS, insecure file uploads, and broken authentication — resulting in zero critical findings post-audit.
- Mission-Critical Delivery:** Successfully maintained government web applications with high availability, supporting public digital services for West Bengal.
- Cross-Functional Collaboration:** Partnered with government stakeholders, QA, and backend engineers to design compliant architectures under tight regulatory requirements.
- Code Quality Assurance:** Conducted 100+ code reviews (~2-3 weekly) over the past year, using AI-assisted tools to speed up reviews and catch issues early.

EDUCATION

Heritage Institute of Technology

Oct 2020 – May 2024

Bachelor of Technology (B.Tech)

Kolkata, India
